

International Association of Clan MacInnes

Mission Statement

The mission of the International Association of Clan MacInnes (IACM) is to research and promote Scottish heritage and Clan MacInnes. IACM creates a global framework to preserve and archive Scottish origins, history, genealogy, heritage sites, traditions, achievements and family chronicles. The Association also promotes and disseminates this educational information through social networking, scholarships, volunteer speakers, Scottish Highland games, newsletters and other media. The Association acts as the principal representative of its members and the worldwide community to connect ancestral families and strengthen those links.
